GRILL REVOLUTION

Over 50 years of developing technological and innovative equipment at the service of gastronomy and the demanding Foodservice Industry sector. Tradition and innovation come together in the design of this grill and oven in a single machine, plus a whole range of equipments to master the gastronomic grill. A machine manufactured with high-tech steel alloys and top-quality components. A true love story for grilling.

Jospo Charcoal Broiler Oven HJA-PLUS-L175

GRILLING OVER CHARCOAL AS A WAY OF LIFE

With over 40,000 clients, Jospo is the perfect partner for the most demanding chefs who want to achieve the highest quality of grilling over charcoal. We have never forgotten our family origins, or the age-old art of grilling over charcoal, and we always use charcoal from the best wood.

Jospo's revolutionary charcoal ovens are unique thanks to expert knowledge and our craftsmen's love of tradition, new steel alloys and the most cutting-edge designs. They are designed with the demands of professional chefs and the hospitality sector in mind. This allows us to make each product reach its full potential.

JOSPER TECHNOLOGY

Mastering the grill since 1969

- 1 Antispark and antiparticulates safety filter.
- 2 Cooled flue.
- 3 Fumes exit regulation (Combustion intensity control and safety lock).
- 4 Refrigeration system exit.
- 5 Multiple positions for grill racks.
- 6 Charcoal combustion.
- 7 Refrigeration air entry.
- 8 Air entry regulation.
- 9 Removable door traction system.
- 10 GN tray as ash collector.

COMBINING TRADITION AND TECHNOLOGY

Our path is an acknowledgement of our experience, but we have never lost our innovative spirit. We strive to combine the most innovative technology and traditional production methods. We are proud to be steel craftsmen and we never forget to respect tradition. Reliability and robustness are at the heart of what we do.

WE ARE MANUFACTURERS AND PASSIONATE ABOUT GASTRONOMY.

GRILL CONDUCTION: Perfect seal and moisture of the product.

NATURAL HEAT CONVECTION: Perfect broiling point of the product within the cooking chamber.

DIRECT EMBERS RADIATION: Energy waves emitted onto the food.

Accurate cooking and time reduction.

BASQUE GRILL

COLOUR CONFIGURATION
PVJ Front Side

Josper PVJ is based on Bittor Arginzoniz's mastership and expertise. Tradition, know-how and expertise have been to a great extent the three main axioms for the design of the Josper Basque Grill:

- The Basque grilling tradition, which goes back to centuries of gastronomic history in Spain.
- Josper's know-how and production tradition since 1969.
- The advice and expertise of Bittor Arginzoniz, owner and chef of one of the best grill restaurants in the world: Etxebarri (Axpe-Marzana, Bizkaia - Spain).

Over the last decade, Mr. Arginzoniz has revolutionized the oldest culinary technique in the world, that of the asado. He is an absolute reference of the gastronomic grill worldwide. Therefore, his knowledge and innovative grilling techniques have been fundamental for the creation of the whole Josper Basque Grill series, an absolute must for any sort of product.

JOSPER CHARCOAL

Josper wood charcoal provides a high calorific value and durable power. Its high efficiency significantly reduces cooking times, which represents substantial savings of money and of resources used for its obtainment.

JOSPER COOKWARE

The result of the fusion between craftsmanship and the most advanced manufacturing technologies gives birth to the Josper cookware, formed by casseroles and handmade molten aluminium Gastronorm trays.
